The crooked man poem conjuring

The Twisted Man is a scary poem based on an old nursery rhyme. There was a quirky man who walked a quirky mile and found six quirky savoir-sati against a quirky little boy who bought a quirky cat that grabbed a quirky mouse and all lived together in a quirky little house but the twisted man was sad and once he thought why he should be quirky, while the others, weren't they? Everything was worthless, he heaved a big big sigh and went and found a rope and tied it to the sky. On the chair he stood, his eyes were empty and dead. Without further thought, his head went. Now the story is not over, for this story is broken and old, go and hide under the cover... There's something he hasn't told yet there was once a quirky man, he had a crooked smile, and if you've lived his life, he'll send you through a trial. Live for your torment, make it full of conflicts, and will not be satisfied... So take your life to note: There's supposed to be an urban legend about a twisted man. They say that if you recite this poem aloud, you will summon a demonic force known as the Twisted Man. Once the poem is recited, everyone in the house is cursed to die from his hands. In the 19th century, he was a writer researching mythology and folklore. Discover some lines of verse that occurred in dozens of different cultures and in dozens of different languages, all of which refer to the same thing. They called him the twisted man. Imagine a death sentence that no one can escape, and no human law can pardon him, an unstoppable eternal force that brings certain death to anyone who dared to summon him. Perhaps it began as a spell or a curse that translated words and passed through the ages, evolved over time. Over the years, they have been copied and studied. Eventually, culture entered and turned into a nursery rhyme... A small, innocent poem for children to recite. However, pandora's parable was opened. The twisted man unleashed the world at a time when anyone realized what was happening, that the twisted man was real, it was already too late. Once you call the twisted man, it can't be stopped. You can't hide and you can't run. He's coming for you. Wherever there is darkness, there will be. If you've been cursed by a crooked man, he'll kill you eventually, whatever it is.
